1. Customer must provide piping to each side of meter in accordance with the standard details of the Water and Sewer Department
2. Meter Pits for outside installation will be charged an additional \$900 for meters 2-inch and smaller. Meter pits for larger meters shall be furnished and installed by customer, at customer's cost.
3. Rock Removal-if required, \$200/cubic yard.
4. Meter testing is available. Customers will be charged a \$75.00 testing fee if meter is found to be within 3% of the meter's stated accuracy. There is no fee for testing if meter does not meet this standard.
5. Complex installations, where determined by the Superintendent that normal fees will not cover the cost of the installation, will be charged on a cost-plus basis for labor, administration and expenses plus 15%.
6. \* Meters damaged beyond repair will be charged the new meter Installation Fee
7. Seasonal Shut Off requires payment of Meter Removal and Reinstallation fee.
